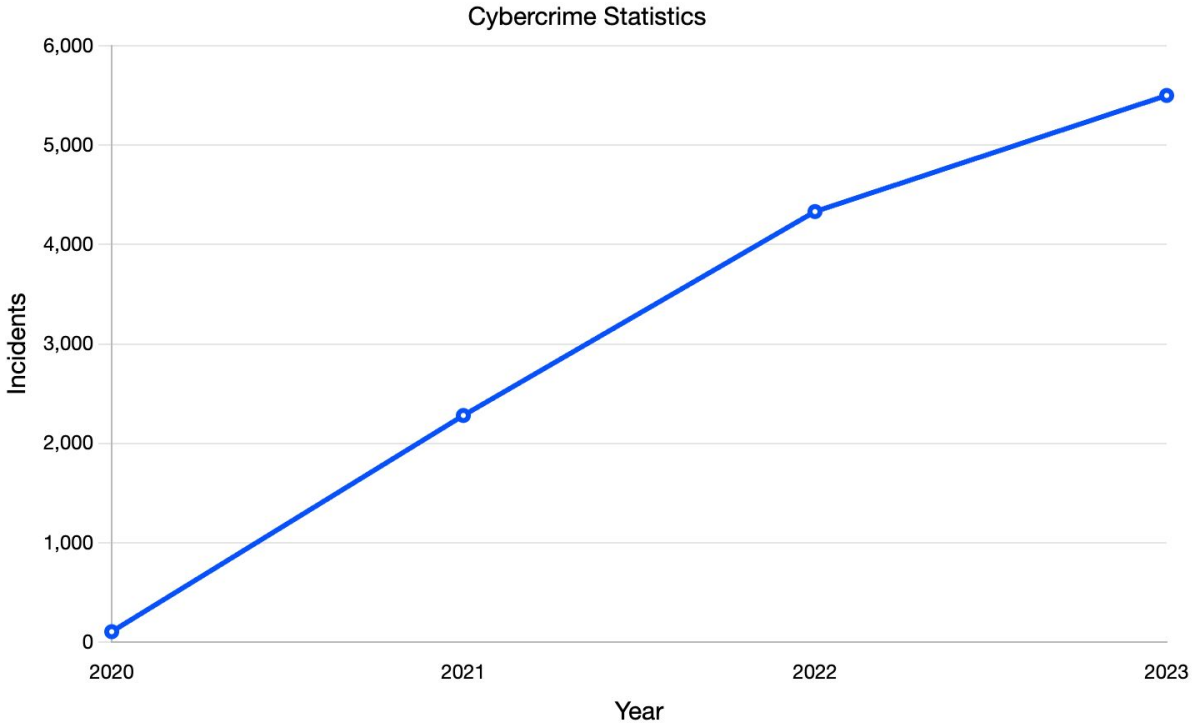
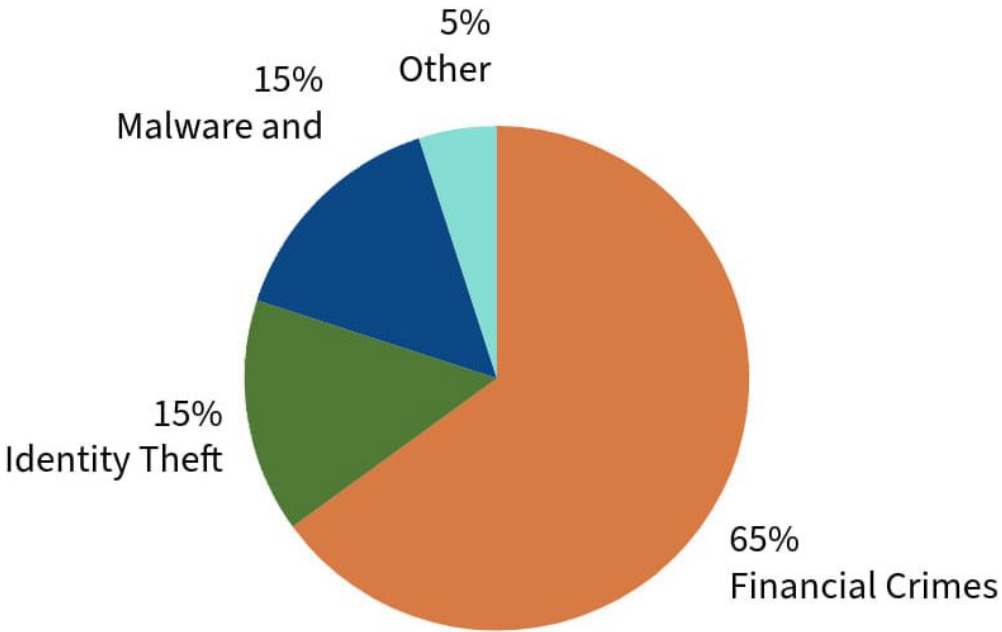
Cybercrime rates in Uzbekistan (2020-2023)



according to [kun.uz](kun.uz)

Cybercrime types



In 65% of the cases, people were ***financially attacked***

according to kun.uz

Why people get often frauded?

- Lack of Knowledge (common scams or methods)
- Over Trusting Nature (we trust people easily)
- Emotional Manipulation (fake emergencies or promises of wealth prey)

What is the ***Solution*** then?

I want to create ***an App*** that helps users stay safe from scams by ***providing alerts***, **education**, and **detection tools**.

- **Real-Time Alerts**: Stay updated on the latest scams and fraud tactics
- **Community Reports**: Share and explore real-life fraud experiences
- **Education Hub**: Learn to identify scams with bite-sized lessons and tips *(Future implementation)*
- **Scam Verification**: Check suspicious messages and calls with AI tools *(Future implementation)*

Fraud Shield - Your educator

- IOS 16+
